IMPORTANT NOTE:
During assembly, upper & lower spacers are specific. Failure to follow these instructions will result in damage of all components.

Upper spacer is shorter

Lower spacer is taller

INSTALL NOTE:

After bolting the control arm to the frame, cycle the arm to ensure it does not contact the side of the coil bucket tower. Some vehicles may require grinding the coil bucket tower to avoid contact.

INSTALLATION NOTES

The factory manual is required for torque specifications on all factory hardware. This procedure will involve the removal and re-installation of many parts. Always use factory replacements for worn or damaged parts.

Some items are not shown for clarity.
